

The Binational Study of the Transboundary San Pedro Aquifer: Results and Future Directions

2:00-4:00 PM – Tuesday, June 20, 2017

AGENDA

Purpose of forum:

- 1) Share results from the binational aquifer study of the San Pedro Aquifer.
- 2) Discuss future directions for studying the San Pedro Aquifer.

Welcome and introductions [2:00-2:20] – Jacob Petersen-Perlman, WRRC

Presentations [2:20-3:15]

1. [History and purpose of the TAAP](#) (10 minutes) – WRRC Director Sharon B. Megdal
2. [Summary of information about the San Pedro Aquifer](#) (25 minutes) - James Callegary, USGS
3. [Collaborations on the San Pedro Report and Current TAAP Efforts](#) (15 minutes) – Elia Tapia, WRRC
4. [Brochure on the San Pedro Report](#) (5 minutes) – Jacob Petersen-Perlman

Discussion Session: Future areas of study for the San Pedro Aquifer [3:15-4:00]

5. Open discussion - questions and answers (20 minutes) – Jacob Petersen-Perlman
 - a. What are the main areas of interest for further investigation about the Binational San Pedro Aquifer?
 - i. Water quality?
 - ii. Water quantity?
 - iii. Binational groundwater management?
 - iv. Modeling the aquifer?
 - v. Economic development?
 - vi. Is there anything missing from this list?
 - b. Do you think that binational groundwater management is necessary?
 - c. If so, which purposes could it serve?
 - d. What opportunities do you see for cooperation across borders within the aquifer?
 - e. What could the WRRC do to help increase understanding of the San Pedro Aquifer in addition to our efforts from the TAAP?
 - f. Is there a need for binational discussions at a citizen level?
 - g. Issue prioritization
6. Summary of forum – (15 minutes)
7. Final survey (15 minutes)
8. 4:00 - Adjourn
